

Solar Electric Site Assessment Pre-screening

To help accelerate your solar site assessment, please answer the following questions about your home, utilities and appliances to the best of your knowledge prior to meeting with your site assessor. Thank you for your time.

1. **Name/Address/Email/Phone**
2. **Briefly describe the property and acreage.**
3. **Is the system being installed as a part of new construction or as a retrofit?**
4. **Briefly describe the building location, age of roof & valleys, vents, obstacles and accessibility.**
5. **How many square feet of conditioned area?**
6. **Number of stories of the building?**
7. **How many members are in the household and what are their ages?**
8. **What hours of the day are the building mostly occupied?**
9. **Why are you interested in renewable energy?**

Power Pack Kankakee is a partnership between Kankakee Community College, the MREA and IGEN. This project is made possible with funding from a National Science Foundation Advanced Technology Education grant.

10. **Are you interested in other renewable energy technologies other than solar electricity? If so, which ones?**
11. **What is your timeline for installation? Will it be installed all at once or incrementally?**
12. **What are your goals regarding production and budget?**
13. **How involved are you willing to be with the system?**
14. **List any additional load considerations (i.e. refrigeration, freezers, hot tub, fish tank, pool heater, etc.)**
15. **List air-conditioning units and circle the type**

Window unit(s) Central air None

Provide any available info on unit including age, SEER rating, Energy Star, etc.

16. **Circle one or more of the following regarding the heating systems for the home:**

Forced Air Furnace Electric Heat Hydronic baseboard

In-floor Hydronic Wood Stove Other

Power Pack Kankakee is a partnership between Kankakee Community College, the MREA and IGEN. This project is made possible with funding from a National Science Foundation Advanced Technology Education grant.

17. Circle fuel source and type of domestic water:

Tank style electric Tank style gas Tank-less/on-demand gas

Solar assisted Other

18. Please provide your electric utility company's information, along with copies of your utility bills for the previous 2 years of your electric power. Also, describe the location of the electrical service entrance.

19. Please provide your gas utility company provider.
