

Solar Twin Cities

For the first time, the Midwest Renewable Energy Association (MREA) is bringing its award winning solar group purchasing program to the Twin Cities. Home and business owners in Greater Minneapolis-St. Paul have an opportunity to take advantage of low solar pricing through the limited-time solar group purchase program.

Solar Twin Cities is a solar group buy program that helps residents invest in lower cost solar installations for their homes and businesses through the power of volume-purchasing.

Join us for a FREE one-hour seminar in partnership with the Center for Energy and Environment (CEE) to educate homeowners, commercial property owners, and communities on the benefits of energy efficiency, solar energy, and how to participate in the program. Sessions will be held August through October 2018.
