

Solar Twin Cities

GROUP PURCHASING PROGRAM

Home and business owners in the Twin Cities have an opportunity to take advantage of record low solar pricing through a limited-time solar group purchase program. Solar Twin Cities is a solar group buy program that can help residents invest in lower cost solar installations through the power of volume-purchasing. Through the program the Midwest Renewable Energy Association (MREA) and Center for Energy and Environment (CEE) are hosting 15-20 FREE one-hour educational events all around the Twin Cities. These events educate homeowners and small business owners on energy efficiency, the basics of solar energy, relevant incentives, financing options, and are the first step to participate in the program.
