

# PARTNER WITH GROW SOLAR

*Providing Solar Education since 2013*

## ANCHOR PARTNER

Our anchor partners are involved with all elements of the program from beginning to end. They commit staff time and take on some responsibilities for the operations of the program. These partners will be mentioned in all promotions and communications about the program, via mentions in text and the use of their logo.

## COMMUNITY PARTNER

Community Partners can support our program in a wide range of capacities. Joining the advisory committee, providing venues for events, acting as virtual co-hosts, assisting with promotion, and granting the use of your logo are all ways to become a community partner..

## GROW SOLAR SUPPORTER

Your organization can support Grow Solar, no matter your capacity. Signing on to support, and lending the use of your logo is all it takes to become a supporter. Joining us as a Grow Solar supporter allows your organization to demonstrate their commitment to sustainability.

## WHAT PARTNERS ARE SAYING

"I can't think of anyone with as much experience doing community-level solar education and bulk solar program management as MREA. [They] helped us dramatically lower the cost of solar in our area which has resulted in a record amount of solar installations."

– Scott R. Tess, Environmental Sustainability Manager, City of Urbana, IL, Anchor Partner

"We couldn't have launched a large-scale residential solar program so quickly and so successfully without MREA's approach. The results exceeded our expectations—more awareness, more solar at an affordable price, and more connections with our partner cities."

– Becky Soglin, Sustainability Coordinator, Johnson County, IA, Anchor Partner
